Spotlight on success

Air Traffic Management – National Air Traffic Services (NATS)

NATS and Frequentis have shared some of the most significant achievements in ATM and provide the largest VCS and electronic flightstrip systems.

Defence – Ministry of Defence

Voice communication systems for over 40 Royal Air Force sites in the UK and overseas, in cooperation with Aquila.

Public Transport – Network Rail

Voice communication and GSM-R for over 1,300 locations.

Public Safety – Metropolitan Police Service

Control Room solutions with over 600 dispatcher positions serving over 30,000 officers in the UK capital.

Public Safety – Police Service of Scotland

Delivering a national control room communications solution serving 17,000+ officers.

Public Safety – Ambulance Radio Programme

National solution for all 13 UK Ambulance Trusts. Delivered as a private cloud-based solution from Government datacentres.

Maritime – Irish Coast Guard

Communications system supporting all coastal activities from three control rooms and managing 100 radio sites.

Airports

Voice communication and control tower systems in over 20 regional airports.

FREQUENTIS

FOR A SAFER WORLD

Regional portfolio

Frequentis UK offers the full range of solutions developed within the Frequentis group based on expertise in voice and data communications, information management, networking technologies, surveillance, AIM and message handling.

The company philosophy focuses on practical usability, providing user-centric systems that conceal

the underlying complexity to support rapid, effective and cost-efficient operations.

Designed specifically for the rigours of mission-critical industries, Frequentis solutions are certified by numerous global authorities and deployed by hundreds of high-profile organisations worldwide, including major government and defence organisations across the UK and Ireland.

Frequentis has a track record of delivering high-quality communication and control solutions throughout the UK & Ireland.

Our large local footprint enables highly responsive support solutions tailored to clients' expectations.

Local delivery and responsive support are backed by the global Frequentis organisation, for a commitment to building long-term value-add relationships.

Offering deep technical know-how and world-class expertise in communication solutions for safety critical applications, Frequentis UK has a user-centric philosophy that promotes user satisfaction, speed, excellence and efficiency.
